BUCK TRACKER

ANTLER RECOGNITION TECHNOLOGY

BUCK TRACKER is an A.I. solution powered by SPYPOINT, trained to recognize and analyze your trail camera photos by species and gender*.

BUCK TRACKER maximizes your potential with more effective and efficient scouting by implementing its cutting edge technology (simple click of a button).

BUCK TRACKER is FREE for SPYPOINT users (FORCE, SOLAR & LINK series).

Use BUCK TRACKER on the SPYPOINT APP or BUCKTRACKER.COM

*(gender availability; Whitetail, Moose and Elk)

A lot has changed in the hunting industry over the last 15 years and this is especially true for the trail camera category. Evolution is part of our life and we at SPYPOINT live, breathe and plan for evolution every day. We are very proud to be considered as leaders in the cellular trail camera market and known for our cutting edge advancements.

Artificial intelligence, future-proof cameras and Over the Air updatable technologies are at the core of each new product and service we develop. SPYPOINT is about offering INNOVATIVE, PREMIUM QUALITY products and we execute this with TEAM WORK, efficiency, EFFORT and recognition.

SPYPOINT is celebrating fifteen amazing years of business in the hunting industry in 2019. We are thankful to our loyal customers, our partners, suppliers and dedicated employees.

With the strong foundation that has been built, we are looking forward to the next 15 years.

2004
